

1. VÄNNEÅS FISHING CONSERVATION AREA

Fishing licenses are available per day or per season. Additionally we offer a weekly family license. Up to three children under 14 years are included on an adults license. Groups of 8 or more persons up to 16 years can get a 40% discount on daily licenses.

Special regulations for trout fishing
Maximum 2 trout/sea trout per license and day. Lures and baited hooks are prohibited. Size limit is 26 cm. Fishing is prohibited during the winter months.

See also instructions on the fishing license. Violations against current fishing regulations will be regarded as illegal fishing in which case the tackle can be confiscated. It is every license holder's responsibility to inquire about current regulations.

For information please contact
Martin Ahlström, chairperson 0046 430 520 29, 0046 70 792 82 58

From Traryd power station down stream 100 m as well as up stream from Kvarnaholm power station fishing is not allowed.

Maximum 2 rainbow/trout with a minimum size of 30 cm per license per day.

Guide to Fishing

Markaryds kommun

Welcome to some exciting fishing in Markaryd

The city of Markaryd, with about 10.000 inhabitants, is situated in the southwestern part of Småland. The surroundings offer a rich and exciting wildlife preserve, magnificent forests and, of course, many lakes with an abundance of fish.

The fishing is divided into seven different fishing conservation areas (fvo). At a low cost we can offer not only fabulous fishing but also lots of excitement and relaxation in wonderful natural surroundings. The most common fish are perch, pike, pike-perch, bream, roach, tench, burbot and eel. Trout can be found within the Vänneå conservation area in the north western corner of the community, and nowadays also in the river Lagan. In central Markaryd in the area of Södergård you will find interesting "put and take" rainbow trout fishery.

Markaryd wishes you good fishing.

Fishing licenses for **all** areas is available at Markaryds Tourist Office, tel 0046 433720 34 - Team Sportia, Markaryd, tel 0046 433104 81 - Konsum, Markaryd, tel 0046 433100 64 - ICA Nära Stbr, tel 0046433206 61, Piraya Sportfishing Markaryd tel 0046 433104 24, STF Hostels Stbr, tel 0046 433200 50, Shell 7-Eleven, Luhrpasset, Stbr tel 0046433209 50.

1. Vänneåns FVO

On the border between Småland and Halland, about twenty kilometres north west of Markaryd, is the beautiful Vänneå fishing conservation area with the river Vänneå and around 15 lakes.

The locality is only sparsely populated, most of it is pure wilderness where both elk and deer can be sighted. All the fishing sites are very well kept and many of the lakes also offer beaches for swimming, grilling sites, hiking and boat rental. Worth mentioning is the wilderness lake Ljungsjön with trout and arctic char.

The river Vänneå has both wild and farm-raised trout. Within this conservation area is Grysshultasjön with good fishing for pike and perch. Cabins for rent can be found in Vivljunga and other places.

2. Tannsjö-Hultasjöns FVO

Tannsjö-Hultasjö fishing conservation area is situated in the centre of the community. It offers exciting fishing for mainly pike and perch, but bream, tench, roach and eel can also be found.

You can either fish from land or rent a boat. An angling competition is commonly arranged once a year.

3. Markaryds FVO www.markarydsfiskevardsomrade.se

The area includes lake Jetesjön situated in the centre of Markaryd, the river Lagan from Majenfors' power station dam to the power station in Kvarnaholm, and the lakes Lokasjön, Byasjön, Skårsjön, Klocksjön, Svartesjön and Södergård with connecting watercourses.

In Södergård ponds in central Markaryd are implanted trout. Here is a spec fishing licenses which are available from fishing license sales.

4. Exens FVO

Exen fishing conservation area consists of lake Exen and the river Bolmån southward to where it joins Lagan and provides good fishing for pike, pike-perch, perch, trout, tench, bream, roach, vendace, burbot and eel.

The lake is fairly shallow which makes fishing from land difficult, so fishing from a boat is preferable. Around the lake you will find several boat rentals where laminated navigational charts are sold.

5. Torpa Socken FVO

Situated within Markaryd community are the Hinneryd lakes. These waters offer pike, perch, roach, bream and trout.

The FVO also comprises among other lakes the Mäen lake with good perch fishing.

6. Lagan (Hanneda-Traryd) FVO

The river Lagan from Hanneda to the dam by Traryd power station provides interesting fishing in wonderful surroundings.

You will find pike, pike-perch, perch, trout, bream, tench, roach, eel and burbot.

7. Hammarsjöns FVO

Lake Hammarsjön fishing conservation area in Strömsnäsbruk is easily accessible and includes the river Lagan from Traryd power station down to the power station in Strömsnäsbruk (Hammarsjön).

The abundance of fish here includes pike, pike-perch, perch, trout, rainbow trout, bream, tench, carp, roach, bleak, burbot and eel. All carp must be handled with care and reintroduced.
